exchange' and made a bunch of liqueurs. I did need to supplement some of the information with some internet lookups, but it sure helped me get started. I passed this book on to friend so I had to buy another one for myself. The Orange and Almond were my favorites!4 of 4 people found the following review helpful. Don't lurk in the ABC storeBy Malvin P Bellanger SRYou won't have to hide from your friends when you want to buy a liqueur. Use this booklet to make your own.The recipes are not difficult and can be tweaked to suit your taste, ingredients are mostly common and may already be in your fridge or spice rack.Nice easy read with a price that won't break your budget.10 of 11 people found the following review helpful. Short, sweet and informativeBy Shala KerriganAll the Storey Country Wisdom Bulletins are short and full of information. They are one of the first places I look for quick overviews to learn basics and to get ideas if I will really be interested in something. This one covers making liqueurs using a vodka or brandy base and flavorings.It has a lot of great recipes that can be used as launching areas for your own concoctions and was just what I was looking for. The techniques. I want to make a vanilla cream liqueur for some people for Christmas, and this book didn't have a recipe for exactly what I was looking for but did give me the information to create my own recipe.Recommended if it's something you're just interested in trying out.
