**Sam Martin : Making Toys: Heirloom Toys to Make in Wood** before purchasing it in order to gage whether or not it would be worth my time, and all praised Making Toys: Heirloom Toys to Make in Wood:

0 of 0 people found the following review helpful. Five StarsBy Kindle CustomerExcellent shape Book! Thank you!1 of 1 people found the following review helpful. Five StarsBy David A. Hausenfleckgood book2 of 3 people found the following review helpful. MAKING TOYSBy lfThe book is in great shape. The shipping was fast, and I am in the middle of following the book for a toy truck. We'll see how it turns out, but so far it is a good book to follow the directions by.

The most complete book yet on making collectible toys from wood. Step-by-step instructions demonstrate how to construct five different models, which include a 1932 Buick sedan, a Ford ""Model A"" pickup, a Peterbilt truck tractor, a van trailer, and a flat bed trailer. Measured drawings containing every detail will help turn out vehicles that

both adults and children will appreciate and hand down as treasured heirlooms.

About the Author Sam Martin is the author of "How to Mow the Lawn" and "How to Keep House," He lives with his wife, Denise, and his son, Ford. He has traveled widely and worked as a tree planter in Ontario and British Columbia and as a Senior Editor at "This Old House" magazine.
