Not short Manhwa stories but a guideBy NeokittyWhen I bought this book I thought it was going to be like Secret comic Japan and have short Manhwa stories. Sadly it does not though it is still helpful. It features Manwha that was released in America and ones that were not. Lots of neat manga I never knew about, even ones released here.0 of 1 people found the following review helpful. UselessBy xtVery limited descriptions of comic books and only goes back to the 90's! The best stuff was way before that!
