**Judy Mathieson : Mariner's Compass Quilts - Setting a New Course: New Process, New Patterns, New Projects** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mariner's Compass Quilts - Setting a New Course: New Process, New Patterns, New Projects:

1 of 1 people found the following review helpful. three dimensional look with the impact I love about this design By Cheri S. I just started my first Mariner's Compass and was sure I'd make a mess of it. But seeing it come together into a striking, three dimensional look with the impact I love about this design, well, I still can't believe it's happening. It will later have dragons and galaxies and turrets at the edges. Probably the most fun I've had doing a quilt. Love it! I used a compass and protractor to enlarge since I live in a small town and there's no one who has an enlarger here. It would be

even easier if you can enlarge on a copier. You can use foundation piecing or traditional cut piecing. It shows both. Gorgeous designs. I'm hooked!0 of 0 people found the following review helpful. About the AuthorJudy Mathieson became interested in quilting in 1973 while completing a BS degree in Home Economics (Textiles and Clothing) at California State University Northridge. She lectures and conducts workshops throughout the United States, and has worked in Canada, Japan, Australia, Scotland, New Zealand and England. She is certified by the National Quilt Association as a Judge. Her work has won numerous prizes at Houston Quilt Festival, Pacific International Quilt Festival, Quilt National, Visions, NQA, and many other shows. Judy and her husband Jack lived for 30 years in the Los Angeles Area, but moved in 1996 to Sebastopol, 50 miles north of San Francisco. Jack is a retired systems manager who photographs quilts. They have two grown sons, a grandson, and three very important border collie dogs. Mariner's compass quilt designs and their many variations are Judy's specialties. She uses various methods of piecing including freezer paper foundations that eliminate stitching through the paper. She also makes quilts for her own pleasure featuring dogs, since her husband enjoys training his dogs for sheep herding competitions.
