**Jill Leman : Martin Leman's Needlepoint Cats** before purchasing it in order to gage whether or not it would be worth my time, and all praised Martin Leman's Needlepoint Cats:

Jill Leman turns her skillfull hands to adapting many of her husband's best-loved cat portraits to needlepoint. Included are 24 original needlepoint designs, with full-color indication charts and yarn specifications as well as reproductions of the original artwork from which the designs ae drawn. Full-color illustrations.
