0 of 0 people found the following review helpful. Not UsefulBy ReviewerSave your money. This book is not worth it. Very little information about 'how to sew". I was looking for a book that would give instruction picutres on how to sew things like welt pockets, and tailoring, and collars, etc. This book gives the bare bones minimum on sewing. For example in the section for POCKETS - they give instruction on how to sew a square patch pocket on the outside of a jacket. Really? I think we can all figure that one out without help. They show how to sew a zipper in, but no information about hidden zippers. There is not one piece of information in this book that warrants the price, so I returned it. I wouldn't even recommend it to a beginner. I think there are better choices on the market1 of 1 people found the following review helpful. Does that tell you how good it isBy Angelo meolaI've borrowed this book from the library 6 times! Does that tell you how good it is?
