Anna Llimos Plomer : Metal (Let's Create!) before purchasing it in order to gage whether or not it would be worth my time, and all praised Metal (Let's Create!):

The twelve projects in each colorful volume of Let's Create! are designed to broaden both imagintion and practical skills. Clear, step-by-step instructions are photographically illustrated but leave plenty of room for independent ideas. The originality of the projects and the materials they use will ignite creativity and bring results that are as useful as they are artistic.
