Michael Pfrommer : Metalwork from the Hellenized East: Catalogue of the Collections. The J. Paul Getty Museum before purchasing it in order to gauge whether or not it would be worth my time, and all praised Metalwork from the Hellenized East: Catalogue of the Collections. The J. Paul Getty Museum:

This lavishly illustrated catalogue is devoted to the Museum's collection of silver and gold from the Hellenized Near East--one of the largest yet assembled. Among the objects included are rhyta, bowls, cups, jewelry, and decorative gold and silver ornaments for horse bridles and clothing. In an extensive introduction, the author dates the various

groups of objects and places them within a wider cultural and archaeological context, providing a detailed stylistic analysis of the ornamental motifs of many pieces. Of particular importance is the inclusion of illustrations of some fifty little-known comparative objects as well as extensive bibliographic references.
