Memory Makers : Michele Gerbrandt's Scrapbook Basics before purchasing it in order to gage whether or not it would be worth my time, and all praised Michele Gerbrandt's Scrapbook Basics:

2 of 2 people found the following review helpful. A classicBy tachi1This is a casual, no fuss, no pressure, no artistic pretensions approach to creating a scrapbook. The book was published in 2002, so styles have changed and more tools and embellishments have been introduced. Some might find the book a bit dated and, in a way it is. But in other ways, the simplicity of the design and the elements serves to illustrate the underlying principles behind creating a good scrapbook page. The photographs and the story they tell are the focus and the reason for scrapbooking in the first place and the author demonstrates this in every layout. Some books tend to use the photos to complement the embellishments, not the other way around. Any of these pages can be updated and embellished with more modern looks and products once the basis for the design has been set.0 of 0 people found the following review helpful. Just

what it says
By Madame Max
This is an excellent book for someone new to making scrapbooks. It lays out the basics but also serves as inspiration when I need a fresh idea. I enjoy going back to this resource frequently.
0 of 0 people found the following review helpful. Great resource for beginners, covers all of the basics
By Stanalon
I bought this for my daughter in law as part of her gift and nearly kept it myself, I wish this had been available to me when I started scrap booking. This is a great resource for beginners and intermediates alike. She goes in to detailed explanation on tools, techniques and tips. Covers all of the basics and then some

Welcome to the world of creative scrapbooking!
If you are new to the art and hobby of scrapbooking, you may be confused as to how and where to begin. This book has been created to set you on the path to a lifetime of scrapbooking enjoyment.
