**From Ellen Million Graphics : Midnight Gardens** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Midnight Gardens:

5 of 5 people found the following review helpful. Unique By Junkie Worth the wait and worth the price! Very cool pictures and nicely illustrated. I've learned from another review to make copies from the book to color. This way if you don't like it because maybe you chose a wrong color (I do that), you have the original in the book. 1 of 1 people found the following review helpful. 5 stars for images 3 stars for the book itself By Precious Honey I am going to give this pretty much the same review that I gave Goddess and Gardens 2. I love love love the pictures this book more so than GG2 because it's more my style. A little darker but just as beautiful. They are top notch. It's the book itself that I give 3 stars to. I would expect a book like this with 20 pictures to go for around half the price. Like I stated in a previous review I purchased a book by Hanna Karlzon for a couple bucks more than this one (minus shipping) and got a 94-page hardcover book that is really nice quality. Now having said that this book does make it easy to remove all the pictures to scan and print on better quality paper. 0 of 0 people found the following review helpful. Wow!!! By Crystal Mayfield This book is amazing. The artist is without a doubt one of the best. She has such a wonderful imagination. I wish the paper would have been thicker but I didn't have a problem with the paper that's in the book.

A beautifully dark coloring book by Mitzi Sato-Wiuff. Gorgeously detailed, a very challenging collection. 20 pages. Difficulty level: color at your own risk! Staple-bound, 8.5 x 11 inches, with a heavy, glossy cardstock cover in full

color and smooth, bright white, single-sided pages suitable for pencils, markers, and most media that isn't too wet.
