It's the perfect book to linger over, and to return to time and again. It's divided into three sections, Americana, Coastal and Classic, and feature quilts and hooked rugs in a variety of settings throughout the home. I enjoyed the narrative that accompanies the pictures, insights into the creative process, and personal stories. There are no instructions included for projects, but many of the quilts and rugs do have patterns and they're listed in the back for easy reference. You can find them on their website and you can follow along with their exploits on their blog. I have really enjoyed this book. 2 of 2 people found the following review helpful. No Patterns ... Beautiful Decorating Ideas Tending Towards The Primitive Style By SLS If you're familiar with this dynamic duo from their sophisticated Moda fabric lines, then you know Minick and Simpson

are among that brand's favorite designers. So I was just a wee bit disappointed to discover how primitive the decorating style is in their new book *Blue White - Living with Textiles You Love*. But I like that the book provides a sneak peek into their homes, backgrounds, and lifestyles. One section of the book shows how Minick's rugs and Simpson's quilts are used in a Florida home. There are many lust-worthy antique textiles and products throughout the book. Even though this is not a project book, the authors do point you to external locations for some of the patterns' instructions. Just check out their "Resources" section at the end of the book.
