**Martha Sutherland : Model Making: A Basic Guide (Norton Professional Books for Architects Designers)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Model Making: A Basic Guide (Norton Professional Books for Architects Designers):

A primer for everyone interested in building models. Model Making is an introduction to the craft for students of architecture; landscape architecture; urban, interior, and theatrical design; or anyone who has the need or desire to make the large small. In concise instructions and nearly 200 charming, easy-to-follow drawings the book details the construction of both study and presentation models in common materials such as paper, chipboard, illustration board, foamcore, and balsa. It also covers topics such as choosing the right materials for the job, rendering contoured sites, and fashioning entourage. 200 illustrations
