The title led me to think it would have more to do with writing and setting forth memories in a new light, in regard to a legacy; however, it was pedestrian in the extreme. I did not care for it.0 of 0 people found the following review helpful. Modern Memory Keeper bookBy vdwolfeReceived it in good condition! A good book. It has great ideas and pictures. I can not wait to utilize the ideas!2 of 2 people found the following review helpful. Love it!By April HollingsheadI'm a digital scrapbooker have been for 2 1/2 years and love it. I got this book

for ideas. I can usually mimic any tradition technique with digital. I got this book to get me some ideas and I got it for a bargain with Scrapbooking the school years and Quick and easy scrapbook styles at a local store. I love the book had great ideas. Pages never turned out exactly like the ones in the book only because I like to make them my own and I use the layouts at a base idea and go from there. I don't have a lot of old photos just a few but I love to read and I get good page ideas from this book.
