**Helen Baird : Mosaics (New Crafts)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mosaics (New Crafts):

0 of 0 people found the following review helpful. Nice addition to mosaic library, different examples than other booksBy Danielle LI have a few core 5 star favorite mosaic books. This is a nice addition with some different ideas not in other books, but the style is not similar to my own.22 of 24 people found the following review helpful. Helen Baird makes the art of mosaics easy!By A CustomerI've been a glass artist for some time now. I came across Helen's book and really love it. She explains techniques very well and gives you some great projects to do. Some of the projects in the book are clocks, love letter rack, aztec box, flower pot and many more. A great book for the beginner or experienced glass artist!

These stylish craft books are highly accessible, with all techniques fully explained, and each project photographed

from start to finish. Each book contains 25 beautiful and original projects.
