Karen Elder : Needlepoint (Potter Needlework Library) before purchasing it in order to gage whether or not it would be worth my time, and all praised Needlepoint (Potter Needlework Library):

4 of 4 people found the following review helpful. A little dissappointedBy ABGI just bought a bunch of needlepoint books - such a good deal on . I loved the cover photo on this one, but it was by far the best design in the book. Elizabeth Bradley's Decorative Victorian Needlework is better if you're looking for traditional needlework patterns.

Featuring a brilliant mix of stylish projects and step-by-step instructions, Needlepoint is an exciting update on one of today's most popular crafts. Detailed charts and lovely color photographs of each project, along with helpful hints on how to stitch, finish, and stretch a canvas, ensure that even beginners can create beautiful cushions and seats, charming slippers, a colorful bolster, or a delightful stitch sampler.

From the Inside FlapFeaturing a brilliant mix of stylish projects and step-by-step instructions, Needlepoint is an exciting update on one of today's most popular crafts. Detailed charts and lovely color photographs of each project, along with helpful hints on how to stitch, finish, and stretch a canvas, ensure that even beginners can create beautiful

cushions and seats, charming slippers, a colorful bolster, or a delightful stitch sampler.
