James Arthur Tuttle : Next in Blacksmithing: Over 30 Projects to Make before purchasing it in order to gage whether or not it would be worth my time, and all praised Next in Blacksmithing: Over 30 Projects to Make:

0 of 0 people found the following review helpful. here is a good place to startBy Mikey BeckerYou always need some new small projects for when you are starting out blacksmith. here is a good place to start.0 of 0 people found the following review helpful. Great book. I enjoyed reading itBy Michael T.Great book. I enjoyed reading it. I'm looking forward to making a few of the projects.0 of 0 people found the following review helpful. Photography of projects is

poor. By j. j. Not what I expected. Photography of projects is poor.

This book offers the blacksmith projects to build for demonstrations at fairs, tractor shows, re-enactor meets, and farmer markets. There is something for the beginner and the advanced blacksmith. What is the most fun for me is teaching the children. I have included items for them to watch and participate in. Older folks seem to enjoy it all.
