Great guide!By Ylana BrooksAll I can say is Karina is a natural perfumery who teaches and creates beautiful organic perfumes. This was the first natural perfumery book I bought. What I love about this book is its slightly esoteric slant with history and fragrance materials. It also has a good introduction to creating natural fragrances and suggests materials that work best together.0 of 0 people found the following review helpful. best perfume making book!By CustomerThis has some very good information and easy recipes to make.
