**Susan Schoenfeld Kalish : Oriental Rugs in Needlepoint** before purchasing it in order to gage whether or not it would be worth my time, and all praised Oriental Rugs in Needlepoint:

Useful patternsBy Gerry P MangneyUse of 8-mesh canvas makes the finished products look quite 'rough', however because it is a book of rugs, that use is understandable. 10-mesh would be better, I think. The patterns are clear enough so that one could easily substitute a finer mesh or even, as I have done in times past, work an Oriental rug pattern on silk to make a rug for a doll house. Some clear instructions on binding and finishing.0 of 1 people found the following review helpful. One StarBy vecaDo not like the way the book was put together. Too messy
