1 of 1 people found the following review helpful. Easy to make for kindergartenersBy V. NaikGifted it as Christmas gift...My relative's son could easily make it...It comes is very small packaging...Good idea for Origami lovers...0 of 0 people found the following review helpful. Not worth the time money.By LeeToo hard to work with even for a grown up. Put it away and may be get back to it one day when I have nothing better to do.0 of 0 people found the following review helpful. Awful quality. Total waste of money and time. Frustrating.By BraindeadBought this for my 6 yr old. Even adults can't do this properly. Horrible paper quality and folds don't stay. Instructions might as well be in Latin because they are hopeless except for follow the numbers without being clear on fold in or out, all the way or partial. Just a frustrating experience.

About the Author Taro Yaguchi is the founder of Taro's Origami Studio. By profession, he is a Japanese Patent Attorney who holds offices in Tokyo, Osaka, and Philadelphia. Like all Japanese children, Taro grew up making origami at a young age, but it wasn't until he was a grown man that origami became his passion. His initial design was a paper airplane that contained his firm's information on one side and a plane design on the other. This proved so popular that he started experimenting with new folds on the long transpacific flights his business requires. Now Taro's Origami Studio has dozens of original designs of trucks, buses, cars, and trains.
