A great read of classic stories that stand the test of ...By ManThe first in the beginning of a seminal series of Marvel origin reprints in deluxe format. A great read of classic stories that stand the test of time and that will save you lots of money from not having to purchase the originals. Just as interesting

are the short introductions to each origin that Stan writes that provide insights and some behind-the-scenes information about the comics that was still fresh on his mind in the 1970s when these essays were written. Hardbacks of this series are precious few in existence and a great investment especially when the dustjackets are in nice shape. 1 of 4 people found the following review helpful. Great Origin stories! Cover was damaged by seller. By David Davidson This is the book I was looking for. Unfortunately the shipped one that had a pretty damaged cover with tape on it. That wasn't shown on the pic or listed that way. I wouldn't have paid as much for a collectible. Comic book collectors are picky and need to be for the resale value. Good readable copy but would have been nice to see all the cover art... I paid an extra couple bucks b/c I thought I would... : (3 of 3 people found the following review helpful. 42 years later and I finally have a good used copy that would have been in the same ... By Brian D. I bought the softcover of this book 42 years ago when I was nine years old, making the mistake of not asking what a cloth cover (advertised in the comics) was! 42 years later and I finally have a good used copy that would have been in the same condition if I had bought it then! And I still have my softcover!! It brings back a lot of great memories, and although I now have the option to read every story in the book digitally, having the hardcopy made me feel like a nine year old comic collecting kid again!

Classic origin stories of some of Marvel's greatest characters.
