I'm looking forward to painting many of the projects. The book was advertised as "used", so it does have some minor signs of wear and tear. But that does not matter since I got this for my personal use. 2 of 2 people found the following review helpful. Ornament Extravaganza By Customer I am delighted with this book. It shows a variety of painted ornaments by various Tole painters from USA. The ornaments are not only aimed at Christmas but for other special times of the year that we celebrate. I am sure you would enjoy this book as much as I have. 0 of 0 people found the following review helpful. Four Stars By Connie B Overton Wonderful book for those who like to paint ornaments

About the AuthorThe Decorative Arts Collection has been forward thinking in its strategy from its inception. With a two-pronged approach, a collection has been assembled which showcases both the historic roots and the contemporary direction of the decorative painting. The Collection features a variety of folk art styles from around the globe and contains a wide diversity of mediums and an incredible assortment of surfaces. In keeping with the DAC mission, one of the primary goals is the continuation of public education about decorative painting and the techniques used to create these masterworks.
