**Memory Makers : Outstanding Albums: 50 Unique Ways to Customize Your Scrapbooks** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Outstanding Albums: 50 Unique Ways to Customize Your Scrapbooks:

10 of 10 people found the following review helpful. Only if you're interested in mini-albums By TassuI was looking for ideas on how to construct a whole album, themes etc. This is not the book for that. It concentrates on how to decorate album covers and most of the projects are mini-albums or creatively shaped albums. I was hoping to see more 12x12 albums and wanted to get ideas on how to turn a cheap, standard album into a work of art. I did not find the inspiration here even though some of the mini-albums did have beautiful colors. The technique side is lacking in any detail, there is no how-to sections. If I would have seen this book in a bookstore first I wouldn't have bought it. I gave it only two stars because even though the book is beautiful to look at it will just collect dust on the shelf.
