Jeanine Rvard Malaney : Painting With Fabric: Creating Art with Fabric Collage and Landscape Quilting before purchasing it in order to gage whether or not it would be worth my time, and all praised Painting With Fabric: Creating Art with Fabric Collage and Landscape Quilting:

19 of 19 people found the following review helpful. VERY INFORMATIVE....By CustomerI absolutely love this book!! This is a hobby that truly fascinates me and I have been playing with for a couple of years. I struggle with knowing the proper layering and whether to stitch or just use a iron adhesive.I have several books on the subject and each seem to cover different areas. Jeanine Rvard Malaney's book covers what my other books were lacking and more of what I need to get started.She has very clear, very simple detailed instructions that are laid out nicely in her book . I do not find the book overwhelming. It's filled with lots of wonderful pictures and photos. I do agree with some of the

other reviews about the pictures not being clear. Although, I don't find them blurry. Honestly, I wouldn't think twice about the pictures if it wasn't for the fact that I want to see and learn the detailed stitches, etc. Most the pictures are large and even full pages and in those I can see more detail. The book's product details read : CreateSpace Independent Publishing Platform (December 12, 2012) I also love that the book's print is on bright white paper with nice size font for easy reading. Compared to the other books that I have on the subject this is the best beginner book. 16 of 16 people found the following review helpful. It has good points! By Onion Moon I purchased this book to help me understand painting on fabric and creating fabric art quilts. This book delivers the topic exactly what as described. I found it a little overwhelming but I was very new to the topic. I am going to revisit reading this book after more practice and creating art quilts and art journaling one quick. This book is very good for someone who's already interested in the topic and have begun some of the work in this area. 2 of 2 people found the following review helpful. I liked the book By Rabbit I liked the book. It taught me that doing a simple project is better than doing one too hard for me. I often try to do one that is too hard and then I am stuck and have to rip it apart. My next project will be one of hers. I loved the ones with the trains in them. Yes, she does paint things as well. I have not tried painting yet. All in all, I think it is my favorite art quilting book.

Painting With Fabric Artist Jeanine Malaney explains how to creating artworks utilizing fabric. This technique will allow you to paint a picture with fabric! It's not a typo...it is not painting on fabric, though Jeanine does utilize paints minimally for shading or highlighting; rather, this is creating a "painting" with the medium of fabric instead of paint! Soooooo fun and less threatening than using paints. You will learn the process of finding an inspiration, establishing a design based on the elements of artistic composition, selecting appropriate fabrics, collage layering, use of paint for detail and shading. Also included are design tips for skies, water, mountains, rocks, cliffs, foliage, trees, figures and buildings. If you want to create original and unique fabric collages, one-of-a-kind watercolor or landscape quilts, and without the purchase of any kind of kit, this is your book

About the Author Jeanine Rivard Malaney studied art in college while earning her bachelors degree in theoretical mathematics from Indiana University. She left a career in aerospace to pursue her passion for art. Jeanine is best known for her watercolor paintings but also creates oil paintings, and in fabric artworks.
