My brother and I love to make some arts from this book and we really enjoy it together. We will explore more tissue tricks because it is so fascinating how a fragile material can be turned into a sturdy one. 5 of 5 people found the following review helpful. My girlfriend loves this book! By Paul Smith Got this book for my girlfriend. She adores craft things at evenings. And this book woke up a new hobby to her! Now she sits every day crafting paper flowers, decorating postcards with them and combine it with decoupage. I really enjoy watching her do these things.
