Hazel Harrison : Pastel school (Learn as You Go) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pastel school (Learn as You Go):

7 of 7 people found the following review helpful. Good introduction to soft pastelsBy Cherrie HillPastels School is a good introductory book into soft pastels. It starts with the very basics, paper, types of pastels and the various supplies one might need when starting out. It gives instruction on the different strokes, blending and various other techniques. It includes quite a few step by step lessons on landscapes, still life, flowers and portraits. However, most were not particularly inspiring to me. I did not like the paper that was predominantly used. In spite of this, it is still a good book to begin with.2 of 2 people found the following review helpful. Disappointed.By MidSouthFor a beginner like me, it wasn't very helpful. I already knew about color wheels, values, etc. The step-by-step instructions weren't so step-by-step. The pictures were too small to identify all the important components and the color choices were way outside the collection of colors in even a large beginners set of pastels.0 of 0 people found the following review helpful. Nice book. Lovely.By Paula A. BurrLovely, instructional book. I am enjoying it.

More than 40 step-by-step sequences show how to master pastel painting and develop your own individual style. Eight projects show the whole process of picture making, from planning to completion.
