Patchwork and Quilting with KidsBy Sandy QuiltsGood teaching book for even those not sewers or quilters. A non-sewing teacher could figure out how to teach her class of 10 year olds with this book.

Over 40 projects introduce the reader to a variety of patchwork techniques, from simple piecing to strips, and from fast triangles to crazy patchwork. Students learn the basics by starting with small projects, such as cushions. Quilters can then advance to the larger, more challenging ideas.

About the Author Maggie Ball enjoys teaching quilting to both children and adults. Maggie became president of the Arkansas Quilter's Guild in 1992, a group recognizing quilters for their exceptional talent and innovative approaches to both traditional and contemporary quilting.
