This was exactly what I wanted! Instead of coloring in the book though, I made copies so my mom could enjoy coloring too. That way you can use it over and over, and use different colors each time. If you want something that doesn't have so many details, then this is for you! I wish they made more like this!! 5 of 5 people found the following review helpful. A very calming series By Alex S This

was one of the earliest Adult coloring books I decided to try. The patterns are simple, and in my "newbie state," these were perfect for exploring whether I wanted to continue using these. I have explored these with crayons, gel pens, colored pencils, and even sharpies. They are repetitive enough to provide a calming influence when I color them. 5 of 5 people found the following review helpful. Too far to the edgesBy TerrThe problem I have with this is when the designs go out to the edges of the pages. I like to have a nice confined space to color in and these were not my favorite since they fill the entire page. I liked the designs.
