**Anneke Lipsanen : Recycling Christmas Cards: Eco Craft Projects and Ideas to Repurpose Holiday Cards - With 45 Special Blank Templates Included** before purchasing it in order to gage whether or not it would be worth my time, and all praised Recycling Christmas Cards: Eco Craft Projects and Ideas to Repurpose Holiday Cards - With 45 Special Blank Templates Included:

0 of 0 people found the following review helpful. A WINNERBy Pat E. PraterRecycling Christmas Cards is a very well written and illustrated book. The projects are beautiful and all have great ways to be used.The written instructions

and illustrations guide you through the full process of completing your project. I have been a big fan for years of Anni Arts, Anneke Lipsanen, author and designer of this book. I believe the designs and projects are very unique because of Anneke Lipsanen's talents in art and design. Note, the template download link does not work from the ebook and you will need to contact the Author to receive the link to the download. I contacted Anneke Lipsanen one evening and the email with links to the templates was in my email the next day, 0 of 0 people found the following review helpful. Maybe, maybe not. By S. Schmidt Lots of templates which is good. However, it really did not meet my crafting needs. Perhaps another reader would find it to be a more useful tool. 0 of 0 people found the following review helpful. Nothing I have not seen before. By MayJ63 Good ideas but nothing really new. By getting the downloaded book I have no access to the patterns but the cost was so low I really can't complain. Lots of information about lots of things that have nothing to do crafts out of Christmas cards but suggestions on how to use the finished product.

If you are a crafter, teacher or parent interested in recycling Christmas cards, then you will love these pretty eco crafts, ideas and special templates to repurpose your used Holiday cards into charming new crafted items. The full color book with instructions and photographs for the 50 projects, plus the template collection with easy craft templates, are all you need to give used greeting cards a second life. The templates are designed and adapted for greeting card sizes and can be used again and again. Don't throw away those beautiful cards after the very short holiday period! Create nifty new items for fabulous scrapbooking, pretty packaging, little personal gifts, fun favors, small tokens of appreciation, creative containers, decor, decorations and ornaments! There are bonus projects, printable pattern paper and a second set of blank craft templates too. Make them for yourself, or to sell at craft markets and fundraising events. And use them for school arts and crafts projects too, as many projects are suitable for children. No fancy coordinated craft shop designs or expensive embellishments are needed. Just use what you have on hand. The happy patchwork medley is exactly what makes the projects in Recycling Christmas Cards so charming. Those lavish graphics on greeting cards were created by professional designers and make fabulous crafting material for pennies on the dollar - and in sturdy card stock to boot. They are just waiting for the new life you can give them. Folks love to browse craft fairs and the likes for those inexpensive "little something" gifts. Many projects are geared towards such little gifts and stocking stuffers. Crafters will love the 45 craft templates in the book, as they have the perfect size for the projects. (Suggestions for recycling Christmas cards are easy to find, but finding templates that are ready to use and scaled to size are not). For convenience the templates are also available as printable downloads. If you have some odd cards left in a box somewhere, you can start your crafting straight away. Then ask friends, family and neighbors for theirs, as you will soon need (and want) a lot of cards. You can even arrange collection boxes at super markets, clubs and such. It is not just about recycling Christmas cards, but about recycling Christmas fun - all year long! So keep every one of your cards and get started for the next Holiday season, because 40 million recycled cards save 13 600 trees! Reuse, remake, repurpose, reduce, recycle and rethink!

Anni Lipsanen has created this eBook and craft template set packed with wonderful, colourful ideas for recycling Christmas cards into new cards and crafts - with a massive template collection! Adele [www.printable-craftshop.com/](http://www.printable-craftshop.com/) [www.card-making-world.com/](http://www.card-making-world.com/) The craft ideas you showed in the book are brilliant - it never occurred to me that I could reuse my Christmas cards (or in fact any other greeting cards) in such creative ways. And those bright and colorful pictures are just too pretty to look at! Thanks for creating this great craft book Anni. It gives me lots of ideas and also serves as a good reminder on how we all should recycle things for a greener Earth. Soo Malaysia (Customer)
